CONSOLIDATED FINANCIAL STATEMENTS
WITH REPORT OF INDEPENDENT ACCOUNTANTS
FOR THE NINE -MONTH PERIODS ENDED
SEPTEMBER 30, 2021 AND 2020

Address: 5F., No.167, Fuxing N. Rd., Zhongshan Dist., Taipei City 104, Taiwan (R.O.C.)
Telephone: 886-2-2713-6227

The reader is advised that these consolidated financial statements have been prepared originally in Chinese. In the event of a conflict between these consolidated financial statements and the original Chinese version or difference in interpretation between the two versions, the Chinese language consolidated financial statements shall prevail.

Review Report of Independent Accountants Translated from Chinese

To AmCad BioMed Corporation

Introduction

We have reviewed the accompanying consolidated balance sheets of AmCad BioMed Corporation (the “Company”) and its subsidiaries as of September 30, 2021 and 2020, the related consolidated statements of comprehensive income for the three-month and nine-month periods ended September 30, 2021 and 2020 and consolidated statement of change in equity and cash flows for the nine-month periods ended September 30, 2021 and 2020, and notes to the consolidated financial statements, including the summary of significant accounting policies (together “the consolidated financial statements”). Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, “Interim Financial Reporting” as endorsed and became effective by Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

Scope of Review

We conducted our reviews in accordance with Statement of Auditing Standards No. 65, “Review of Financial Information Performed by the Independent Auditor of the Entity” of the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of China and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group and its subsidiaries as at September 30, 2021 and 2020, and their consolidated financial performance for the three-month and nine-month periods ended September 30, 2021 and 2020 and cash flows for the nine-month periods ended September 30, 2021 and 2020, in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, “Interim Financial Reporting” as endorsed and became effective by Financial Supervisory Commission of the Republic of China.

Notice to Readers

The accompanying consolidated financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to review such consolidated financial statements are those generally accepted and applied in the Republic of China.

Accordingly, the accompanying consolidated financial statements and report of independent accountants are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice. As the financial statements are the responsibility of the management, Ernst & Young cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

AMCAD BIOMED CORPORATION AND ITS SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

For the nine-month periods ended September 30, 2021 and 2020

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

1. History and organization

AmCad BioMed Corporation (“the Company”) was incorporated on December 26, 2008. The Company’s common shares were publicly listed on Taipei Exchange on March 24, 2015. The Company’s registered office and the main business location is at 5F, No.167, Fuxing N. Rd., Zhongshan Dist., Taipei City, Taiwan (R.O.C.).

AmCad is currently developing high-end Computer-Aided Detection and Diagnosis (CAD) software device. The Company is a world leader in the development of AmCAD-UT® Detection, a CAD device for ultrasound images of thyroid nodules, which has obtained US FDA clearance, CE Mark, CFDA and TFDA approvals and completed the authorization of the China regional distribution rights. AmCAD-UO has also obtained US FDA and CE Mark approvals and planned to gradually promote to the global market. With its proprietary image analyzing technology, the Company will continue to build other core technology platforms such as AmCAD-UV and AmCAD-US, and to develop other high-end medical devices.

2. Date and procedures of authorization of financial statements for issue

The consolidated financial statements and its subsidiaries (“the Group”) were submitted to Board of Directors’ meeting on November 5, 2021.

3. Newly issued or revised standards and interpretations

- (1) Changes in accounting policies resulting from applying for the first time certain standards and amendments

The Group applied for the first time International Financial Reporting Standards, International Accounting Standards, and Interpretations issued, revised or amended which are recognized by Financial Supervisory Commission (“FSC”) and become effective for annual periods beginning on or after 1 January 2021. The adoption of these new standards and amendments has no material impact on the Group.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- (2) Standards or interpretations issued, revised or amended, by International Accounting Standards Board (“IASB”) which are endorsed by FSC, but not yet adopted by the Group as at the end of the reporting period are listed below.

Item	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	Narrow-scope amendments of IFRS, including Amendments to IFRS 3, Amendments to IAS 16, Amendments to IAS 37 and the Annual Improvements	1 January 2022

- (a) Narrow-scope amendments of IFRS, including Amendments to IFRS 3, Amendments to IAS 16, Amendments to IAS 37 and the Annual Improvements

A. Updating a Reference to the Conceptual Framework (Amendments to IFRS 3)

The amendments updated IFRS 3 by replacing a reference to an old version of the Conceptual Framework for Financial Reporting with a reference to the latest version, which was issued in March 2018. The amendments also added an exception to the recognition principle of IFRS 3 to avoid the issue of potential “day 2” gains or losses arising for liabilities and contingent liabilities. Besides, the amendments clarify existing guidance in IFRS 3 for contingent assets that would not be affected by replacing the reference to the Conceptual Framework.

B. Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16)

The amendments prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss.

C. Onerous Contracts - Cost of Fulfilling a Contract (Amendments to IAS 37)

The amendments clarify what costs a company should include as the cost of fulfilling a contract when assessing whether a contract is onerous.

D. Annual Improvements to IFRS Standards 2018 - 2020

Amendment to IFRS 1

The amendment simplifies the application of IFRS 1 by a subsidiary that becomes a first-time adopter after its parent in relation to the measurement of cumulative translation differences.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Amendment to IFRS 9 Financial Instruments

The amendment clarifies the fees a company includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability.

Amendment to Illustrative Examples Accompanying IFRS 16 Leases

The amendment to Illustrative Example 13 accompanying IFRS 16 modifies the treatment of lease incentives relating to lessee's leasehold improvements.

Amendment to IAS 41

The amendment removes a requirement to exclude cash flows from taxation when measuring fair value thereby aligning the fair value measurement requirements in IAS 41 with those in other IFRS Standards.

The abovementioned standards and interpretations were issued by IASB and endorsed by FSC so that they are applicable for annual periods beginning on or after 1 January 2022 and have no material impact on the Group.

- (3) Standards or interpretations issued, revised or amended, by IASB which are not endorsed by FSC, and not yet adopted by the Group as at the end of the reporting period are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Associates and Joint Ventures" — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures	To be determined by IASB
b	IFRS 17 "Insurance Contracts"	1 January 2023
c	Classification of Liabilities as Current or Non-current – Amendments to IAS 1	1 January 2023
d	Disclosure Initiative - Accounting Policies – Amendments to IAS 1	1 January 2023
e	Definition of Accounting Estimates – Amendments to IAS 8	1 January 2023
f	Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to IAS 12	1 January 2023

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- (a) IFRS 10“Consolidated Financial Statements” and IAS 28“Investments in Associates and Joint Ventures” — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures

The amendments address the inconsistency between the requirements in IFRS 10 *Consolidated Financial Statements* and IAS 28 *Investments in Associates and Joint Ventures*, in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture. IAS 28 restricts gains and losses arising from contributions of non-monetary assets to an associate or a joint venture to the extent of the interest attributable to the other equity holders in the associate or joint ventures. IFRS 10 requires full profit or loss recognition on the loss of control of the subsidiary. IAS 28 was amended so that the gain or loss resulting from the sale or contribution of assets that constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full.

IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized only to the extent of the unrelated investors’ interests in the associate or joint venture.

- (b) IFRS 17 “Insurance Contracts”

IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects (including recognition, measurement, presentation and disclosure requirements). The core of IFRS 17 is the General (building block) Model, under this model, on initial recognition, an entity shall measure a group of insurance contracts at the total of the fulfilment cash flows and the contractual service margin. The carrying amount of a group of insurance contracts at the end of each reporting period shall be the sum of the liability for remaining coverage and the liability for incurred claims.

Other than the General Model, the standard also provides a specific adaptation for contracts with direct participation features (the Variable Fee Approach) and a simplified approach (Premium Allocation Approach) mainly for short-duration contracts.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

IFRS 17 was issued in May 2017 and it was amended in June 2020. The amendments include deferral of the date of initial application of IFRS 17 by two years to annual beginning on or after 1 January 2023 (from the original effective date of 1 January 2021); provide additional transition reliefs; simplify some requirements to reduce the costs of applying IFRS 17 and revise some requirements to make the results easier to explain. IFRS 17 replaces an interim Standard – IFRS 4 Insurance Contracts – from annual reporting periods beginning on or after 1 January 2023.

(c) Classification of Liabilities as Current or Non-current – Amendments to IAS 1

These are the amendments to paragraphs 69-76 of IAS 1 Presentation of Financial statements and the amended paragraphs related to the classification of liabilities as current or non-current.

(d) Disclosure Initiative - Accounting Policies – Amendments to IAS 1

The amendments improve accounting policy disclosures that to provide more useful information to investors and other primary users of the financial statements.

(e) Definition of Accounting Estimates – Amendments to IAS 8

The amendments introduce the definition of accounting estimates and included other amendments to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors to help companies distinguish changes in accounting estimates from changes in accounting policies.

(f) Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to IAS 12

The amendments narrow the scope of the recognition exemption in paragraphs 15 and 24 of IAS 12 so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences.

The abovementioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Group's financial statements were authorized for issue, the local effective dates are to be determined by FSC. The foregoing standards and interpretations have no material impact on the Group.

4. Summary of significant accounting policies

(1) Statement of compliance

The consolidated financial statements of the Group for the nine-month periods ended September 30, 2021 and 2020 have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (“the Regulations”) and IAS 34 Interim Financial Reporting, as endorsed and became effective by the FSC.

(2) Basis of preparation

The consolidated financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. The consolidated financial statements are expressed in thousands of New Taiwan Dollars (“NT\$”) unless otherwise stated.

(3) Basis of consolidation

Preparation principle of consolidated financial statement

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- A. power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- B. exposure, or rights, to variable returns from its involvement with the investee, and
- C. the ability to use its power over the investee to affect its returns

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- A. the contractual arrangement with the other vote holders of the investee
- B. rights arising from other contractual arrangements
- C. the Group’s voting rights and potential voting rights

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Subsidiaries are fully consolidated from the acquisition date, which being the date on which the Group obtains control and continue to be consolidated until the date that such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using uniform accounting policies. All intra-group balances, income and expenses, unrealized gains and losses and dividends resulting from intra-group transactions are eliminated in full.

A change in the ownership interest of a subsidiary, without a change of control, is accounted for as an equity transaction.

Total comprehensive income of the subsidiaries is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

If the Group loses control of a subsidiary, it:

- A. derecognizes the assets (including goodwill) and liabilities of the subsidiary
- B. derecognizes the carrying amount of any non-controlling interest
- C. recognizes the fair value of the consideration received
- D. recognizes the fair value of any investment retained
- E. recognizes any surplus or deficit in profit or loss
- F. reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss

The consolidated entities are listed as follows:

Investor	Subsidiary	Main businesses	Percentage of ownership (%)		
			Sep. 30, 2021	Dec. 31, 2020	Sep. 30, 2020
The Company	Broadsound Corporation	Manufacturing of medical equipment	40%	40%	40%

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Although the percentage of ownership interests in Broadsound Corporation is less than 50%, the Company determined that it has control over Broadsound Corporation. This is due to a combination of factors including the fact that the Company remains the single largest shareholder of Broadsound Corporation since the inception of the investment; the Company could obtain proxies to achieve relative majority in absence of contractual arrangement and the ability of the Company to appoint or approve the key management personnel of Broadsound Corporation who have the ability to direct the related activities.

(4) Foreign currency transactions

The Group's consolidated financial statements are presented in NT\$, which is also the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions in foreign currencies are initially recorded by the Group entities at their respective functional currency rates prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency closing rate of exchange ruling at the reporting date. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

All exchange differences arising on the settlement of monetary items or on translating monetary items are taken to profit or loss in the period in which they arise except for the following:

- A. Exchange differences arising from foreign currency borrowings for an acquisition of a qualifying asset to the extent that they are regarded as an adjustment to interest costs are included in the borrowing costs that are eligible for capitalization.
- B. Foreign currency items within the scope of IFRS 9 Financial Instruments are accounted for based on the accounting policy for financial instruments.
- C. Exchange differences arising on a monetary item that forms part of a reporting entity's net investment in a foreign operation is recognized initially in other comprehensive income and reclassified from equity to profit or loss on disposal of the net investment.

When a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange component of that gain or loss is recognized in other comprehensive income. When a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss is recognized in profit or loss.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(5) Current and non-current distinction

An asset is classified as current when:

- A. The Group expects to realize the asset, or intends to sell or consume it, in its normal operating cycle
- B. The Group holds the asset primarily for the purpose of trading
- C. The Group expects to realize the asset within twelve months after the reporting period
- D. The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- A. The Group expects to settle the liability in its normal operating cycle
- B. The Group holds the liability primarily for the purpose of trading
- C. The liability is due to be settled within twelve months after the reporting period
- D. The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

(6) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid time deposits (including ones that have maturity within three months) or investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(7) Financial instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities within the scope of IFRS 9 Financial Instruments are recognized initially at fair value plus or minus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

A. Financial instruments: Recognition and Measurement

The Group accounts for regular way purchase or sales of financial assets on the trade date.

The Group classified financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss considering both factors below:

- (a) the Group's business model for managing the financial assets and
- (b) the contractual cash flow characteristics of the financial asset.

Financial assets measured at amortized cost

A financial asset is measured at amortized cost if both of the following conditions are met and presented as note receivables, trade receivables financial assets measured at amortized cost and other receivables etc., on balance sheet as at the reporting date:

- (a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are subsequently measured at amortized cost (the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount and the maturity amount and adjusted for any loss allowance) and is not part of a hedging relationship. A gain or loss is recognized in profit or loss when the financial asset is derecognized, through the amortization process or in order to recognize the impairment gains or losses.

Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

- (a) purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
- (b) financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Financial asset measured at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

- (a) the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Recognition of gain or loss on a financial asset measured at fair value through other comprehensive income are described as below:

- (a) A gain or loss on a financial asset measured at fair value through other comprehensive income recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses, until the financial asset is derecognized or reclassified.
- (b) When the financial asset is derecognized the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.
- (c) Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:
 - (i) Purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
 - (ii) Financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

In addition, for the equity instruments that are covered by the International Financial Reporting Standards No. 9, and the equity instruments are neither held for trading nor contingent consideration recognized by the acquirer in the business combination of International Financial Reporting Standard No. 3, when initially recognized, they selected (irrevocable) to report their subsequent changes in fair value in other comprehensive income. The amount presented in other comprehensive profit or loss cannot subsequently be transferred to profit or loss (when the disposal of these equity instruments, the cumulative amount of other equity items will be directly transferred to the retained earnings) and measured at fair value through other comprehensive income. The financial assets are presented on the balance sheet. Dividends on investments are recognized in profit or loss unless the dividend clearly represents a recovery of part of the investment costs.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Financial assets at fair value through profit or loss

Except for the aforesaid situations in which certain conditions are met and measured at post-amortization costs or at fair value through other comprehensive income, financial assets are measured at fair value through profit or loss, and financial assets at fair value through profit or loss are presented on balance sheet.

Financial assets at fair value through profit or loss are measured at fair value with changes in fair value recognized in profit or loss. Dividends or interests on financial assets at fair value through profit or loss are recognized in profit or loss.

B. Impairment of financial assets

The Group recognizes a loss allowance for expected credit losses on debt instrument investments measured at fair value through other comprehensive income and financial asset measured at amortized cost. The loss allowance on debt instrument investments measured at fair value through other comprehensive income is recognized in other comprehensive income and not reduce the carrying amount in the statement of financial position.

The Group measures expected credit losses of a financial instrument in a way that reflects:

- (a) an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- (b) the time value of money; and
- (c) reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The loss allowance is measures as follow:

- (a) At an amount equal to 12-month expected credit losses: the credit risk on a financial asset has not increased significantly since initial recognition or the financial asset is determined to have low credit risk at the reporting date. In addition, the Group measures the loss allowance at an amount equal to lifetime expected credit losses in the previous reporting period but determines at the current reporting date that the credit risk on a financial asset has increased significantly since initial recognition is no longer met.
- (b) At an amount equal to the lifetime expected credit losses: the credit risk on a financial asset has increased significantly since initial recognition or financial asset that is purchased or originated credit-impaired financial asset.
- (c) For trade receivables or contract assets arising from transactions within the scope of IFRS 15, the Group measures the loss allowance at an amount equal to lifetime expected credit losses.
- (d) For lease receivables arising from transactions within the scope of IFRS 16, the Group measure the loss allowance at an amount equal to life time expected credit losses.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

At each reporting date, the Group needs to assess whether the credit risk on a financial asset has increased significantly since initial recognition by comparing the risk of a default occurring at the reporting date and the risk of default occurring at initial recognition. Please refer to Note 12 for further details on credit risk.

C. Derecognition of financial assets

A financial asset is derecognized when:

- (a) The rights to receive cash flows from the asset have expired
- (b) The Group has transferred the asset and substantially all the risks and rewards of the asset have been transferred
- (c) The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the consideration received or receivable including any cumulative gain or loss that had been recognized in other comprehensive income, is recognized in profit or loss.

D. Financial liabilities and equity

Classification between liabilities or equity

The Group classifies the instrument issued as a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The transaction costs of an equity transaction are accounted for as a deduction from equity (net of any related income tax benefit) to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

Financial liabilities

Financial liabilities within the scope of IFRS 9 *Financial Instruments* are classified as financial liabilities at fair value through profit or loss or financial liabilities measured at amortized cost upon initial recognition.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated as at fair value through profit or loss.

A financial liability is classified as held for trading if:

- (a) it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
- (b) on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking; or
- (c) it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

If a contract contains one or more embedded derivatives, the entire hybrid (combined) contract may be designated as a financial liability at fair value through profit or loss; or a financial liability may be designated as at fair value through profit or loss when doing so results in more relevant information, because either:

- (a) it eliminates or significantly reduces a measurement or recognition inconsistency; or
- (b) a group of financial assets, financial liabilities or both is managed, and its performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy, and information about the group is provided internally on that basis to the key management personnel.

Gains or losses on the subsequent measurement of liabilities at fair value through profit or loss including interest paid are recognized in profit or loss.

Financial liabilities at amortized cost

Financial liabilities measured at amortized cost include interest bearing loans and borrowings that are subsequently measured using the effective interest rate method after initial recognition. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by considering any discount or premium on acquisition and fees or transaction costs.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified (whether or not attributable to the financial difficulty of the debtor), such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

E. Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

(8) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- A. In the principal market for the asset or liability, or
- B. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants in their economic best interest.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

(9) Inventories

Inventories are valued at lower of cost and net realizable value item by item.

Costs incurred in bringing each inventory to its present location and condition are accounted for as follows:

Raw materials – Purchase at actual cost, on a weighted average basis

Finished goods and work in progress – Cost of direct materials and labor and a proportion of manufacturing overheads based on normal operating capacity but excluding borrowing costs.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Rendering of services is accounted in accordance with IFRS 15 and not within the scope of inventories.

(10) Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of dismantling and removing the item and restoring the site on which it is located and borrowing costs for construction in progress if the recognition criteria are met. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. When significant parts of property, plant and equipment are required to be replaced in intervals, the Company recognized such parts as individual assets with specific useful lives and depreciation, respectively. The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition provisions of IAS 16 *Property, plant and equipment*. When a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

Building and structures	40 years
Machinery and equipment	5 years
Molding equipment	5 years
Office equipment	3~5 years
Other equipment	3~5 years
Leasehold improvements	5~10 years

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognized in profit or loss.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year-end and adjusted prospectively, if appropriate.

(11) Leases

The Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Group assesses whether, throughout the period of use, has both of the following:

- A. the right to obtain substantially all of the economic benefits from use of the identified asset;
and
- B. the right to direct the use of the identified asset.

For a contract that is, or contains, a lease, the Group accounts for each lease component within the contract as a lease separately from non-lease components of the contract. For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components. The relative stand-alone price of lease and non-lease components shall be determined on the basis of the price the lessor, or a similar supplier, would charge the Group for that component, or a similar component, separately. If an observable stand-alone price is not readily available, the Group estimates the stand-alone price, maximising the use of observable information.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Group as a lessee

Except for leases that meet and elect short-term leases or leases of low-value assets, the Group recognizes right-of-use assets and lease liability for all leases which the Group is the lessee of those lease contracts.

At the commencement date, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses its incremental borrowing rate. At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- A. fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- B. variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- C. amounts expected to be payable by the lessee under residual value guarantees;
- D. the exercise price of a purchase option if the Group is reasonably certain to exercise that option; and
- E. payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

After the commencement date, the Group measures the lease liability on an amortised cost basis, which increases the carrying amount to reflect interest on the lease liability by using an effective interest method; and reduces the carrying amount to reflect the lease payments made.

At the commencement date, the Group measures the right-of-use assets at cost. The cost of the right-of-use assets comprises:

- A. the amount of the initial measurement of the lease liability;
- B. any lease payments made at or before the commencement date, less any lease incentives received;
- C. any initial direct costs incurred by the lessee; and
- D. an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

For subsequent measurement of the right-of-use assets, the Group measures the right-of-use assets at cost less any accumulated depreciation and any accumulated impairment losses. That is, the Group measures the right-of-use assets applying a cost model.

If the lease transfers ownership of the underlying asset to the Group by the end of the lease term or if the cost of the right-of-use assets reflects that the Group will exercise a purchase option, the Group depreciates the right-of-use assets from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Group depreciates the right-of-use assets from the commencement date to the earlier of the end of the useful life of the right-of-use assets or the end of the lease term.

The Group applies IAS 36 “Impairment of Assets” to determine whether the right-of-use assets is impaired and to account for any impairment loss identified.

Except for those leases that the Group accounted for as short-term leases or leases of low-value assets, the Group presents right-of-use assets and lease liabilities in the balance sheet and separately presents lease-related interest expense and depreciation charge in the statements of comprehensive income.

For short-term leases or leases of low-value assets, the Group elects to recognize the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis.

Group as a lessor

At inception of a contract, the Group classifies each of its leases as either an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. At the commencement date, the Group recognizes assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease.

For a contract that contains lease components and non-lease components, the Group allocates the consideration in the contract applying IFRS 15.

The Group recognizes lease payments from operating leases as rental income on either a straight-line basis or another systematic basis. Variable lease payments for operating leases that do not depend on an index or a rate are recognized as rental income when incurred.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(12) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in profit or loss for the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or infinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at least at the end of each financial year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in profit or loss when the asset is derecognized.

Research and development costs

Research costs are expensed as incurred. Development expenditures, on an individual project, are recognized as an intangible asset when the Group can demonstrate:

- A. The technical feasibility of completing the intangible asset so that it will be available for use or sale
- B. Its intention to complete and its ability to use or sell the asset
- C. How the asset will generate future economic benefits
- D. The availability of resources to complete the asset
- E. The ability to measure reliably the expenditure during development

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Following initial recognition of the development expenditure as an asset, the cost model is applied requiring the asset to be carried at cost less any accumulated amortization and accumulated impairment losses. During the period of development, the asset is tested for impairment annually. Amortization of the asset begins when development is complete, and the asset is available for use. It is amortized over the period of expected future benefit.

A summary of the policies applied to the Group's intangible assets is as follows:

	<u>Proprietary technology</u>	<u>Royalties</u>	<u>Computer software</u>
Useful lives	Finite	Finite	Finite
Amortization method used	Amortized on a straight-line basis over the period of the authorization	Amortized on a straight-line basis over the period of the authorization	Amortized on a straight- line basis over the estimated useful life
Internally generated or acquired	Acquired	Acquired	Acquired
Amortized lives	15 years	10~15 years	3-5 years

(13) Impairment of non-financial assets

The Group assesses at the end of each reporting period whether there is any indication that an asset in the scope of IAS 36 *Impairment of Assets* may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's ("CGU") fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been an increase in the estimated service potential of an asset which in turn increases the recoverable amount. However, the reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

A cash generating unit, or groups of cash-generating units, to which goodwill has been allocated is tested for impairment annually at the same time, irrespective of whether there is any indication of impairment. If an impairment loss is to be recognized, it is first allocated to reduce the carrying amount of any goodwill allocated to the cash generating unit (group of units), then to the other assets of the unit (group of units) pro rata on the basis of the carrying amount of each asset in the unit (group of units). Impairment losses relating to goodwill cannot be reversed in future periods for any reason.

An impairment loss of continuing operations or a reversal of such impairment loss is recognized in profit or loss.

(14)Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probably that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Group expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Provision Warranties

A provision is recognized for expected warranty claims on products sold, based on past experience, management's judgments and other known factors.

(15)Revenue recognition

The revenue from the contract between the Group and the customer mainly includes sales of goods and licensing income. The accounting treatments are described as follows:

Sales of goods

Revenue from sales of goods is recognized when control of the goods is transferred to the customer and the goods are delivered to the customers. The main products of the Group are medical diagnosis system and medical devices. The Group recognizes revenue from the description of the contracts.

The guarantees provided by the Group are based on the assurance that the provided products will operate as expected by customers and are handled in accordance with IAS 37.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The credit period of the Group's sale of goods is from 30 to 90 days. For most of the contracts, when the Group transfers the goods to customers and has a right to an amount of consideration that is unconditional, these contracts are recognized as trade receivables. The Group usually collects the payments shortly after transfer of goods to customers; therefore, there is no significant financing component to the contract. However, for some contracts, part of the consideration was received from customers upon signing the contract, and the Group has the obligation to provide the services subsequently; accordingly, these amounts are recognized as contract liabilities.

Royalty Revenue

The royalty revenue of the Group will be recognized within the authorization period on the basis of straight line after the Group gets the certification of registration on the product. The Group charged a one-time fixed royalty fee which cannot be cancelled for authorized distributors and recognize royalty revenue within the authorization period. The Group has the obligation to provide the services subsequently; accordingly, these amounts are recognized as contract liabilities.

The period between the transfers of contract liabilities to revenue is usually within one year, thus, no significant financing component is arose.

Rendering of services

The Group charged a service fee by rendering medical equipment installation service and by rendering maintenance service. Revenue from rendering of services is recognized when the service is completed.

(16) Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset. When the grant relates to an expense item, it is recognized as income over the period necessary to match the grant on a systematic basis to the costs that it is intended to compensate.

(17) Post-employment benefits

All regular employees of the Group are entitled to a pension plan that is managed by an independently administered pension fund committee. Fund assets are deposited under the committee's name in the specific bank account and hence, not associated with the Group. Therefore, fund assets are not included in the Group's consolidated financial statements.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

For the defined contribution plan, the Group will make a monthly contribution of no less than 6% of the monthly wages of the employees subject to the plan. The Group recognizes expenses for the defined contribution plan in the period in which the contribution becomes due.

(18) Share-based payment transactions

The cost of equity-settled transactions between the Group and its employee is recognized based on the fair value of the equity instruments granted. The fair value of the equity instruments is determined by using an appropriate pricing model.

The cost of equity-settled transactions is recognized, together with a corresponding increase in other capital reserves in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The income statement expense or credit for a period represents the movement in cumulative expense recognized as at the beginning and end of that period.

No expense is recognized for awards that do not ultimately vest, except for equity-settled transactions where vesting is conditional upon a market or non-vesting condition, which are treated as vesting irrespective of whether or not the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled transaction award are modified, the minimum expense recognized is the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognized for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it vested on the date of cancellation, and any expense not yet recognized for the award is recognized immediately. This includes any award where non-vesting conditions within the control of either the entity or the employee are not met. However, if a new award is substituted for the cancelled award, and designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(19) Income taxes

Income tax expense (income) is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Current income tax relating to items recognized in other comprehensive income or directly in equity is recognized in other comprehensive income or equity and not in profit or loss.

The additional income tax for undistributed earnings is recognized as income tax expense in the subsequent year when the distribution proposal is approved by the Shareholders' meeting.

Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- A. Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- B. In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- A. Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- B. In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax assets and deferred tax liabilities reflects the tax consequences that would follow from the manner in which the Group expects. Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity. Deferred tax assets are reassessed at each reporting date and are recognized accordingly.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Interim period income tax expense is accrued using the tax rate that would be applicable to expected total annual earnings, that is, the estimated average annual effective income tax rate applied to the pre-tax income of the interim period. The estimated average annual effective income tax rate only includes current income tax. The recognition and measurement of deferred tax follows annual financial reporting requirements in accordance with IAS 12. The Group recognizes the effect of change in tax rate for deferred taxes in full if the new tax rate is enacted by the end of the interim reporting period, by charging to profit or loss, other comprehensive income, or directly to equity.

(20) Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred, the identifiable assets acquired and liabilities assumed are measured at acquisition date fair value. For each business combination, the acquirer measures any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are accounted for as expenses in the periods in which the costs are incurred and are classified under administrative expenses.

When the Group acquires a business, it assesses the assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Any contingent consideration to be transferred by the acquirer will be recognized at the acquisition-date fair value. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability, will be recognized in accordance with IFRS 9 *Financial Instruments* either in profit or loss or as a change to other comprehensive income. However, if the contingent consideration is classified as equity, it should not be remeasured until it is finally settled within equity.

Goodwill is initially measured as the amount of the excess of the aggregate of the consideration transferred and the non-controlling interest over the net fair value of the identifiable assets acquired and the liabilities assumed. If this aggregate is lower than the fair value of the net assets acquired, the difference is recognized in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units. Each unit or group of units to which the goodwill is so allocated represents the lowest level within the Group at which the goodwill is monitored for internal management purpose and is not larger than an operating segment before aggregation.

Where goodwill forms part of a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation. Goodwill disposed of in this circumstance is measured based on the relative recoverable amounts of the operation disposed of and the portion of the cash-generating unit retained.

5. Significant accounting judgements, estimates and assumptions

The preparation of the Group's consolidated financial statements require management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumption and estimate could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

(1) Judgement

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the consolidated financial statements:

A. Operating lease commitment — Group as the lessor

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, that it retains all the significant risks and rewards of ownership of these properties and accounts for the contracts as operating leases.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

B. De facto control without a majority of the voting rights in subsidiaries

The Group does not have majority of the voting rights in certain subsidiaries. However, after taking into consideration factors such as absolute size of the Group's holding, relative size of the other shareholdings, how widely spread are the remaining shareholders, contractual arrangements between shareholders, potential voting rights, etc., the Group reached the conclusion that it has de facto control over these subsidiaries. Please refer to Note 4(3) for further details.

(2) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Impairment of non-financial assets

An impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell calculation is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date less incremental costs that would be directly attributable to the disposal of the asset or cash generating unit. The value in use calculation is based on a discounted cash flow model. The cash flows projections are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the cash generating unit being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

6. Contents of significant accounts

(1) Cash and cash equivalents

	As of		
	Sep. 30, 2021	Dec. 31, 2020	Sep. 30, 2020
Cash on hand	\$146	\$149	\$148

Time deposits	37,400	42,890	48,870
Total	<u>\$46,861</u>	<u>\$59,647</u>	<u>\$62,623</u>

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(2) Financial assets at fair value through profit or loss

	As of		
	Sep. 30, 2021	Dec. 31, 2020	Sep. 30, 2020
Mandatorily measured at fair value through profit or loss:			
Listed open-ended fund	\$1,301	\$4,000	\$502
Current	\$1,301	\$4,000	\$502
Non-current	-	-	-
Total	\$1,301	\$4,000	\$502

Financial assets at fair value through profit or loss were not pledged.

(3) Financial assets at fair value through other comprehensive income

	As of		
	Sep. 30, 2021	Dec. 31, 2020	Sep. 30, 2020
Equity instrument investments measured at fair value through other comprehensive income			
Stock of listed company	\$26,055	\$40,051	\$36,225
Stock of non-listed company	6,912	12,388	16,953
Total	\$32,967	\$52,439	\$53,178
Current	\$-	\$-	\$-
Non-current	32,967	52,439	53,178
Total	\$32,967	\$52,439	\$53,178

Financial assets at fair value through other comprehensive income were not pledged.

The Group's dividend income related to equity instrument investments measured at fair value through other comprehensive income for the nine-month periods ended September 30, 2021 and 2020 are as follow:

	For the nine-month periods ended September 30,	
	2021	2020
Related to investments held at the end of the reporting period	\$1,125	\$1,800
Related to investments derecognized during the period	-	-
Dividends recognized during the period	\$1,125	\$1,800

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

In consideration of the Group's investment strategy, the Group disposed and derecognized partial equity instrument investments measured at fair value through other comprehensive income. Details on derecognition of such investments for the nine-month periods ended September 30, 2021 and 2020 are as follow:

	For the three-month periods ended September 30,		For the nine-month periods ended September 30,	
	2021	2020	2021	2020
The fair value of the investments at the date of derecognition	\$-	\$-	\$28,249	\$-
The cumulative gain or loss on disposal reclassified from other equity to retained earnings	-	-	4,841	-

(4) Financial assets measured at amortized cost

	As of		
	Sep. 30, 2021	Dec. 31, 2020	Sep. 30, 2020
Time deposits with more than three-months maturity	\$334,610	\$331,470	\$343,070
Current	\$334,610	\$331,470	\$343,070
Non-current	-	-	-
Total	\$334,610	\$331,470	\$343,070

Financial assets measured at amortized cost were not pledged.

(5) Accounts receivable and accounts receivable-related parties

	As of		
	Sep. 30, 2021	Dec. 31, 2020	Sep. 30, 2020
Accounts receivable	\$3,947	\$3,270	\$4,539
Less: loss allowance	(649)	(649)	(649)
Subtotal	3,298	2,621	3,890
Accounts receivable from related parties	30	137	127
Less: loss allowance	-	-	-
Subtotal	30	137	127
Total	\$3,328	\$2,758	\$4,017

Accounts receivables were not pledged.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Accounts receivable are generally on 30-90-day terms. The total carrying amount as of September 30, 2021, December 31, 2020 and September 30, 2020 are NT\$3,977 thousand, NT\$3,407 thousand and NT\$4,666 thousand, respectively. Please refer to Note 6. (15) for more details on loss allowance of Accounts receivable for the nine-month periods ended September 30, 2021 and 2020. Please refer to Note 12 for detail on credit risk management.

(6) Inventories

	As of		
	Sep. 30, 2021	Dec. 31, 2020	Sep. 30, 2020
Raw materials	\$7,592	\$8,238	\$7,725
Work in progress	9,979	8,057	8,799
Finish goods	3,837	5,045	5,872
Total	<u>\$21,408</u>	<u>\$21,340</u>	<u>\$22,396</u>

The cost of inventories recognized in costs amounts to NT\$6,154 thousand and NT\$3,026 thousand for the three-month periods ended September 30, 2021 and 2020, respectively.

The cost of inventories recognized in costs amounts to NT\$14,166 thousand and NT\$8,189 thousand for the nine-month periods ended September 30, 2021 and 2020, respectively.

No inventories were pledged.

(7) Prepayments

	As of		
	Sep. 30, 2021	Dec. 31, 2020	Sep. 30, 2020
Overpaid VAT	\$1,061	\$1,364	\$1,678
Other prepaid expenses	932	159	290
Prepayment for purchases	649	386	389

	2021	2020	2021	2020
Operating expenses	\$2,037	\$2,040	\$6,109	\$6,118

- A. Intangible asset — proprietary technology: The technology contribution of NT\$26,500 thousand was made in consideration of shares as a form of capital injection in connection with the provided knowledge and expertise in Ultrasound CAD and cancer related diagnosis in 2009. In 2012, Tsung-Shann Jiang, one of the shareholders voluntarily surrendered his technology shares in the amount of NT\$6,250 thousand; therefore, the technology contribution amounted to NT\$20,250 thousand. In 2013, the technology contributed to the share price in the amount of NT\$54,450 thousand, totaling NT\$74,700 thousand.
- B. Intangible asset — royalties: The Company paid royalties in the amount of NT\$500 thousand to obtain the proprietary technology licensing of “AmCAD-US for Liver fibrosis.”
- C. Intangible asset — royalties: The Company paid royalties in the amount of NT\$4,500 thousand to obtain the proprietary technology licensing of “AmCAD-US platform.
- D. The proprietary technology and royalties the Company acquired as listed above from (A) to (C) are amortized based on the licensing period or accounting practice over the amortization periods of 15, 10, and 15 years, respectively.
- E. Computer software is amortized over 3~5 years by straight-line method.
- F. Goodwill and proprietary technology acquired through business combinations are NT\$31,175 thousand and NT\$36,762 thousand, respectively. Proprietary technology are predicted to be amortized over the amortization period of 15 years.

Goodwill

Explanation of significant difference between expected benefit and actual operation after acquisition.

The equity value analysis information on which the acquisition price is determined by the Group’s acquisition of BROADSOUND CORPORATION is based on the company’s financial forecast for the next five years. Therefore, if there is a significant difference between the expected benefits after the acquisition and the actual operating conditions, it shall be evaluated and explained based on the achievement of the relevant operating revenue during the financial forecast period.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Due to the coronavirus pneumonia outbreak this year, the actual operating income of the related cash generating units after the acquisition of BROADSOUND CORPORATION is not as expected. The revenue estimation is based on the signed sales contract, the past sales experiences, and the trend of the market, having concerned the appearance of new competitors and the economic environment. No other significant changes have been made in the latest assumptions, and this period has not accrued impairment. Thus, no impairment loss of goodwill has been recognized in the end of this period.

(10) Post-employment benefits

Defined contribution plan

The Group adopts a defined contribution plan in accordance with the Labor Pension Act of the R.O.C. Under the Act, monthly contributions shall not be less than 6% of the employees' monthly wages. The Group has made monthly contributions of 6% of each individual employee's salaries or wages to employees' pension accounts.

Expenses under the defined contribution plan for the three-month periods ended September 30, 2021 and 2020 were NT\$637 thousand and NT\$637 thousand, respectively. Expenses under the defined contribution plan for the nine-month periods ended September 30, 2021 and 2020 were NT\$1,878 thousand and NT\$1,969 thousand, respectively.

(11) Provisions

	<u>Warranties</u>

(12) Equities

A. Common stock

- (a) The Company's authorized capital was NT\$1,000,000 thousand as of September 30, 2021, December 31, 2020, and September 30, 2020; while the issued capital was NT\$532,214 thousand. The Company has issued 532,214 thousand and 53,221 thousand common shares as of September 30, 2021, December 31, 2020, and September 30, 2020, each at a par value of NT\$10. All of the shares are common stock; including shares issued in consideration of the technology contribution in the amount of NT\$74,700 thousand.
- (b) The Company was authorized to issue employee share options. Each unit entitles an optionee to subscribe for 1,000 shares of the Company's common shares. The 231 units of options were exercised at NT\$10 per share in 2019 and had been approved by relevant authority on March 18, 2020.

Please refer to Note 6. (13) for relevant information on share-based payment plans.

B. Capital surplus

	As of		
	Sep. 30, 2021	Dec. 31, 2020	Sep. 30, 2020
Additional paid-in capital	\$88,626	\$88,626	\$88,626
Employee stock option	1,634	1,401	1,570
Change in ownership interests in subsidiary	940	940	940
Other	3,410	3,410	3,852
Total	<u>\$94,610</u>	<u>\$94,377</u>	<u>\$94,988</u>

According to the Company Act, the capital reserve shall not be used except for making good the deficit of the company. When a company incurs no loss, it may distribute the capital reserves related to the income derived from the issuance of new shares at a premium or income from endowments received by the company. The distribution could be made in cash or in the form of dividend shares to its shareholders in proportion to the number of shares being held by each of them.

C. Retained earnings and dividend policies

The Company's original Articles of Incorporation provided that after-tax earnings shall first offset against any deficit, and 10% of the balance shall be set as legal reserve. After deducting items above from the current year's earnings, no less than 50% of the remaining amount together with the prior years' unappropriated earnings is to be allocated. The distribution will be recommended by the board of directors and resolved in the shareholders' meeting. Please refer to Note 6. (17) for further details on employees' compensation and remuneration to directors and supervisors.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The Company's operation is at the growth stage, so, in principle, the dividend policy is to distribute 50% cash dividends and 50% stock dividends, taking into consideration the cash flow, earnings, future expansion of the Company, and external competitive environment.

According to the Company Act, the Company needs to set aside amount to legal reserve unless where such legal reserve amounts to the total authorized capital. The legal reserve can be used to offset the deficit of the Company. When the Company incurs no loss, it may distribute the portion of legal reserve which exceeds 25% of the paid-in capital by issuing new shares or by cash in proportion to the number of shares being held by each of the shareholders.

Pursuant to existing regulations, the Company is required to set aside additional special reserve equivalent to the net debit balance of the other components of shareholders' equity. For any subsequent reversal of other net deductions from shareholders' equity, the amount reversed may be distributed.

D. Non-controlling interests

	For the nine-month periods ended September 30,	
	2021	2020
Beginning balance	\$97,401	\$104,982
Net loss attributable to non-controlling interests	(1,483)	(5,956)
Ending balance	<u>\$95,918</u>	<u>\$99,026</u>

(13) Share-based payment plans

Certain employees of the Group are entitled to share-based payment as part of their remunerations. Services are provided by the employees in return for the equity instruments granted. These plans are accounted for as equity-settled share-based payment transactions.

A. Share-based payment plan for employees of the parent entity

On July 20, 2017, April 17, 2019 and July 29, 2021 the Company was authorized by the Securities and Futures Bureau of the FSC, Executive Yuan, to issue employee share options with a total number of 600, 500 and 260 units. Each unit entitles an optionee to subscribe for 1,000 shares of the Company's common shares. The exercise price of the option was set at the closing price of the Company's common share on the grant date. The optionee may exercise the options in accordance with certain schedules as prescribed by the plan starting 2 years from the grant date. Settlement upon the exercise of the options will be made through the issuance of new shares by the Company.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The fair value of the share options is estimated at the grant date using a Black-Scholes option pricing-model, taking into account the terms and conditions upon which the share options were granted.

The relevant details of the aforementioned share-based payment plan are as follows:

Date of grant	Total number of share options granted (in thousands)	Exercise price of share options (NT\$)
2017.08.04	160	30.00
2018.02.23	50	30.00
2019.08.02	290	25.00
2020.02.21	140	23.00
2021.08.05	260	16.50

The following table contains further details on the aforementioned share-based payment plan:

B. Share-based payment plan for employees of the subsidiaries

The subsidiary, BROADSOUND CORPORATION (the “entity”), was authorized by Board of Directors to issue employee share options with a total number of 4,000 units on July 19, 2013. Each unit entitles an optionee to subscribe for 1,000 shares of the entity’s common shares. It shall be issued in multiple installments within four years from the date of the approval of the board of directors, and its authorization shall be set by the chairman on the actual issue date. The target participants are limited to full-time employees within the formal establishment of the entity. The contractual term of the option granted is six years, an optionee may exercise the options in accordance with certain schedules as prescribed by the plan from the date of grant.

The fair value of the share options is estimated at the grant date using a Black-Scholes option pricing-model, taking into account the terms and conditions upon which the share options were granted.

The relevant details of the aforementioned share-based payment plan are as follows:

Date of grant	Total number of share options granted (in thousands)	Exercise price of share options (NT\$)
2013.8.23	2,976	\$10.00
2015.1.10	1,024	10.00

Contract liabilities-non-current

	As of			
	Sep. 30, 2021	Dec. 31, 2020	Sep. 30, 2020	Jan. 1, 2020
Royalty revenue	\$-	\$4,431	\$7,754	\$17,722

The significant changes in the Group's balances of contract liabilities during the nine-month periods ended September 30, 2021 and 2020 are as follows:

	For the nine-month periods ended September 30,	
	2021	2020
The opening balance transferred to revenue	\$18,311	\$16,478

(15) Expected credit loss

	For the three-month periods ended September 30,		For the nine-month periods ended September 30,	
	2021	2020	2021	2020
Operating expenses-expected credit loss				
Accounts receivable	\$-	\$-	\$-	\$99

The Group measures the loss allowance of its accounts receivable at an amount equal to lifetime expected credit losses. The assessment of the Group's loss allowance as at September 30, 2021, December 31, 2020 and September 30, 2020 are as follow:

The Group considers the grouping of accounts receivable (including accounts receivable-related parties) by counterparties' credit rating and the historical credit loss experience shows that different customer segments do not have significantly different loss patters. Therefore, the loss allowance of contact assets is measured with no distinction between groups and its loss allowance is measured by using a provision matrix, details are as follow:

As of September 30, 2021	Not yet due	Overdue				Total
		<=90 days	91~180 days	181~365 days	>=366 days	
Gross carrying amount	\$2,509	\$918	\$-	\$-	\$550	\$3,977

(d) Cash outflow relating to leasing activities

During the nine-month periods ended September 30, 2021 and 2020, the Group's total cash outflows for leases amounting to NT\$4,520 thousand and NT\$4,212 thousand, respectively.

(e) Other information relating to leasing activities

(i) Extension and termination options

Some of the Group's agreement contain extension and termination options. In determining the lease terms, the non-cancellable period for which the Group has the right to use an underlying asset, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. These options are used to maximize operational flexibility in terms of managing contracts. The majority of extension and termination options held are exercisable only by the Group. After the commencement date, the Group reassesses the lease term upon the occurrence of a significant event or a significant change in circumstances that is within the control of the lessee and affects whether the Group is reasonably certain to exercise an option not previously included in its determination of the lease term, or not to exercise an option previously included in its determination of the lease term.

B. Group as a lessor

Leases of owned properties, plant and equipment are classified as operating leases as they do not transfer substantially all the risks and rewards incidental to ownership of underlying assets.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

According to the Company's Articles of Incorporation, 3%~6% of profit of the current year is distributable as employees' compensation and no higher than 4% of profit of the current year is distributable as remuneration to directors and supervisors. However, the Company's accumulated losses shall have been covered. The Company may, by a resolution adopted by a majority vote at a meeting of board of directors attended by two-thirds of the total number of directors, have the profit distributable as employees' compensation in the form of shares or in cash; and in addition, thereto a report of such distribution is submitted to the shareholders' meeting. Information on the board of directors' resolution regarding the employees' compensation and remuneration to directors and supervisors can be obtained from the "Market Observation Post System" on the website of the TWSE.

Based on profit of the nine-month periods ended September 30, 2021 and 2020, the Company estimated the amounts of the employee bonuses and remuneration to directors and supervisors to be both NT\$0 thousand.

No difference exist between the estimated amount and actual distribution of the employees' compensation and remuneration to directors for the year ended December 31, 2020.

Arising during the period	during the period			
Not to be reclassified to profit or loss in subsequent periods:				
Unrealized gain from equity instrument investments measured at fair value through other comprehensive income	\$3,830	\$-	\$3,830	\$-

For the nine-month period ended September 30, 2020

	Reclassification adjustments	Other comprehensive income-before tax	Tax income (expense)	Other comprehensive income, net of tax
Arising during the period	during the period			
Not to be reclassified to profit or loss in subsequent periods:				
Unrealized loss from equity instrument investments measured at fair value through other comprehensive income	\$963	\$-	\$963	\$-

(20) Income tax

A. The major components of income tax expense (income) are as follows:

Income tax expense (income) recognized in profit or loss

For the three-month periods ended September 30, 2021 and 2020, the Group recognized current income tax expense and deterred income tax expense to be both NT\$0 thousand.

For the nine-month periods ended September 30, 2021 and 2020, the Group recognized current income tax expense and deterred income tax expense to be both NT\$0 thousand.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Income tax relating to components of other comprehensive income

For the three-month periods ended September 30, 2021 and 2020, the Group recognized deferred income tax expense to be both NT\$0 thousand.

For the nine-month periods ended September 30, 2021 and 2020, the Group recognized deferred income tax expense to be both NT\$0 thousand.

B. The assessment of income tax returns

As of September 30, 2021, the assessment of income tax returns of the Company and its subsidiary is as follows:

	<u>The assessment of income tax returns</u>
The Company	Assessed and approved up to 2019
Subsidiary-Broadsound Corporation	Assessed and approved up to 2018

(21) Loss per share

Basic loss per share amounts are calculated by dividing net loss for the year attributable to ordinary equity holders of the parent entity by the weighted average number of ordinary shares outstanding during the year.

Diluted loss per share amounts are calculated by dividing the net loss attributable to ordinary equity holders of the parent entity by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

	<u>For the three-month periods ended September 30,</u>		<u>For the nine-month periods ended September 30,</u>	
	<u>2021</u>	<u>2020</u>	<u>2021</u>	<u>2020</u>
Loss before tax attributable to ordinary equity holders of the Company (in thousands)	<u>\$29</u>	<u>\$(9,864)</u>	<u>\$(19,322)</u>	<u>\$(31,149)</u>
Weighted average number of ordinary shares outstanding-Basic loss per share (thousand shares)	<u>53,221</u>	<u>53,221</u>	<u>53,221</u>	<u>53,156</u>
Loss per share-basic (in NT\$)	<u>\$0.00</u>	<u>\$(0.19)</u>	<u>\$(0.36)</u>	<u>\$(0.59)</u>

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The Company's employee stock options have anti-dilutive effect when the Company encounters loss. Therefore, calculations of diluted loss per share is no required.

There have been no other transactions involving ordinary shares or potential ordinary shares between the reporting date and the date the financial statements were authorized for issue.

(22) Subsidiary that have material non-controlling interests:

Financial information of subsidiary that have material non-controlling interests is as follow:

Proportion of ownership and voting rights held by non-controlling interests:

Name	Country of incorporation and operation	As of		
		Sep. 30, 2021	Dec. 31, 2020	Sep. 30, 2020
Broadsound Corporation	Taiwan	60%	60%	60%

	As of		
	Sep. 30, 2021	Dec. 31, 2020	Sep. 30, 2020

8. Assets pledged as security

The following asset of the Group pledged as security:

Item	Carrying amount			Secured liabilities
	Sep. 30, 2021	Dec. 31, 2020	Sep. 30, 2020	
Refundable deposits	<u>\$802</u>	<u>\$1,255</u>	<u>\$-</u>	Guarantee of payment for goods

9. Commitments and contingencies

- (1) The Company entered into an agreement with the National Taiwan University and Professor King-Jen Chang to obtain the specialized technology licensing of “Thyroid CAD system.” The contract price of NT\$ 2,500 thousand was paid with NT\$ 1,000 thousand cash and the Company’s shares at face value NT\$ 1,500 thousand. The total payment was recognized as intangible asset. The term of the agreement was six years, from January 23, 2009 to January 22, 2015. The agreement will extend automatically annually when the term expires. According to the agreement, the Company paid royalties depending on the net sales generated from the medical equipment.
- (2) The Company entered into an agreement with the National Taiwan University and Professor Chiung-Nien Chen to obtain the specialized technology licensing of “AmCAD-US platform.” The contract price of NT\$ 4,500 thousand was paid in cash. The agreement came into effect on July 1, 2014 and will expire in 20 years following the final application date of R.O.C. patent or American patent. The Company shall pay royalties depending on the sales of the products that apply this technology during the 10 years following the day the inspection registration is obtained.

(2) Financial risk management objectives and policies

The Group's principal financial risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activities. The Group identifies measures and manages the aforementioned risks based on the Group's policy and risk appetite.

The Group has established appropriate policies, procedures and internal controls for the aforementioned financial risk management in accordance with the relevant regulations. Important financial activities have to be reviewed by the board of directors and the audit committee in accordance with relevant regulations and internal control systems. During the implementation of the financial management activities, the Group must strictly comply with the relevant provisions of the financial risk management.

(3) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of the changes in market prices. Market prices comprise currency risk, interest rate risk and other price risk (such as equity risk).

In practice, it is rarely the case that a single risk variable will change independently from other risk variable, there is usually interdependencies between risk variables. However, the sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

Foreign currency risk

The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense are denominated in a different currency from the Group's functional currency). The foreign currency sensitivity analysis of the possible change in foreign exchange rates on the Group's profit is performed on significant monetary items denominated in foreign currencies as at the end of the reporting period.

The Group's foreign currency risk is mainly related to the volatility in the exchange rates for USD. When NTD strengthens/weakens against USD by 1%, the profit for the nine-month periods ended September 30, 2021 and 2020 were decreased/increased by NT\$58 thousand and NT\$79 thousand, respectively.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Equity price risk

The fair value of the Group's listed and unlisted equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group's listed and unlisted equity securities are classified as financial assets at fair value through profit or loss. The Group manages the equity price risk through diversification and placing limits on individual and total equity instruments. Reports of the equity portfolio are submitted to the Group's senior management on a regular basis. The Group's board of directors reviews and approves all equity investment decisions.

A change of 5% in the price of the listed companies stock classified as equity instruments investment measured at fair value through other comprehensive income could increase/decrease the Group's equity after tax for the nine-month periods ended September 30, 2021 and 2020 by NT\$1,303 thousand and NT\$1,811 thousand respectively.

A change of 5% in the price of the unlisted companies stock classified as equity instruments investment measured at fair value through other comprehensive income could increase/decrease the Group's equity after tax for the nine-month periods ended September 30, 2021 and 2020 by NT\$346 thousand and NT\$848 thousand respectively.

Please refer to Note 12.(8) for sensitivity analysis information of other equity instruments or derivatives that are linked to such equity instruments whose fair value measurement is categorized under Level 3.

(4) Credit risk management

The Group's exposure to credit risk arises from potential default of the counterparty or other third party. The level of exposure depends on several factors including concentrations of credit risk, components of credit risk, the price of contract and customer credit policy. As of nine-month periods ended September 30, 2021 and 2020, the Group's credit risk amount is estimated from the contracts with positive fair value on the balance sheet date.

The Group's exposure to credit risk arising from the default of counterparties is limited to the carrying amount of these instruments. The Group mitigates the credit risks from financial institutions by limiting its counterparties to only reputable domestic or international financial institutions with good credit standing and the Group has no derivative financial instrument transactions. Consequently, there is no significant credit risk for these counterparties.

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. Credit limits are established for all customers based on their financial position, ratings from credit rating agencies, historical experience, prevailing economic condition and the Group's internal rating criteria etc. The Group's exposure to credit risk arising from the default of counterparties is limited to the carrying amount of accounts receivable and notes receivable.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The Group adopted IFRS 9 to assess the expected credit losses. Except for the loss allowance of trade receivables is measured at lifetime expected credit losses, the remaining debt instrument investments which are not measured at fair value through profit or loss, low credit risk for these investments is a prerequisite upon acquisition and by using their credit risk as a basis for the distinction of categories. The Group makes an assessment at each reporting date as to whether the credit risk still meets the conditions of low credit risk and then further determines the method of measuring the loss allowance and the loss ratio.

Financial assets are written off when there is no realistic prospect of future recovery (the issuer or the debtor is in financial difficulties or bankruptcy).

(5) Liquidity risk management

The Group's investment in the financial assets accounted for at fair value through profit or loss has active market. The Group expected the financial assets to be sold easily in the market at a price close to fair value. The Group is not expected to have liquidity risk. The table below summarizes the maturity profile of the Group's financial liabilities based on the contractual undiscounted payments and contractual maturity. The payment amount includes the contractual interest.

Non-derivative financial liabilities

	Less than 1 year	2 to 3 years	4 to 5 years	> 5 years	Total

(7) Fair values of financial instruments

A. The methods and assumptions applied in determining the fair value of financial instruments:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used by the Group to measure or disclose the fair values of financial assets and financial liabilities:

- (a) The carrying amount of cash and cash equivalents, accounts receivables, accounts payable and other current liabilities approximate their fair value due to their short maturities.
- (b) For financial assets and liabilities traded in an active market with standard terms and conditions, their fair value is determined based on market quotation price (including listed equity securities, beneficiary certificates, bonds and futures etc.) at the reporting date.
- (c) Fair value of equity instruments without market quotations (including private placement of listed equity securities, unquoted public company and private company equity securities) are estimated using the market method valuation techniques based on parameters such as prices based on market transactions of equity instruments of identical or comparable entities and other relevant information (for example, inputs such as discount for lack of marketability, P/E ratio of similar entities and Price-Book ratio of similar entities).
- (d) Fair value of debt instruments without market quotations, bank loans, bonds payable and other non-current liabilities are determined based on the counterparty prices or valuation method. The valuation method uses DCF method as a basis, and the assumptions such as the interest rate and discount rate are primarily based on relevant information of similar instrument (such as yield curves published by the GreTai Securities Market, average prices for Fixed Rate Commercial Paper published by Reuters and credit risk, etc.)
- (e) The fair value of derivatives which are not options and without market quotations, is determined based on the counterparty prices or discounted cash flow analysis using interest rate yield curve for the contract period. Fair value of option-based derivative financial instruments is obtained using on the counterparty prices or appropriate option pricing model (for example, Black-Scholes model) or other valuation method (for example, Monte Carlo Simulation).

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

B. Fair value of financial instruments measured at amortized cost

Other than cash and cash equivalents, accounts receivables, accounts payable and other current liabilities whose carrying amount approximate their fair value, the fair value of the Group's financial assets and financial liabilities measured at amortized cost is listed in the table below:

	Carrying amount as of		
	Sep. 30, 2021	Dec. 31, 2020	Sep. 30, 2020
Financial assets:			
Financial assets at amortized cost	\$334,610	\$331,470	\$343,070

	Fair value as of		
	Sep. 30, 2021	Dec. 31, 2020	Sep. 30, 2020
Financial assets:			
Financial assets at amortized cost	\$334,610	\$331,470	\$343,070

C. Fair value measurement hierarchy for financial instruments

Please refer to Note 12.(8) for fair value measurement hierarchy for financial instruments of the Group.

(8) Fair values measurement hierarchy

A. Fair value measurement hierarchy

All asset and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole. Level 1, 2 and 3 inputs are described as follows:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly or indirectly.
- Level 3: Unobservable inputs for the assets or liabilities.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization at the end of each reporting period.

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

B. Fair value measurement hierarchy of the Group's assets and liabilities

The Group does not have assets that are measured at fair value on non-recurring basis. Fair value measurement hierarchy of the Group's assets and liabilities measured at fair value on a recurring basis is as follows:

As of September 30, 2021

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Financial assets at fair value through profit or loss				
Listed open-ended fund	\$1,301	\$-	\$-	\$1,301
Financial assets at fair value through other comprehensive income				
Equity instrument measured at fair value through other comprehensive income				
Stock of listed company	26,055	-	-	26,055
Stock of unlisted company	-	-	6,912	6,912

As of December 31, 2020

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Financial assets at fair value through profit or loss				
Listed open-ended fund	\$4,000	\$-	\$-	\$4,000
Financial assets at fair value through other comprehensive income				
Equity instrument measured at fair value through other comprehensive income				
Stock of listed company	40,051	-	-	40,051
Stock of unlisted company	-	-	12,388	12,388

As of September 30, 2020

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Financial assets at fair value through profit or loss				
Listed open-ended fund	\$502	\$-	\$-	\$502
Financial assets at fair value through other comprehensive income				
Equity instrument measured at fair value through other comprehensive income				
Stock of listed company	36,225	-	-	36,225
Stock of unlisted company	-	-	16,953	16,953

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Transfers between Level 1 and Level 2 during the period

During the nine-month periods September 30, 2021 and 2020, there were no transfers between Level 1 and Level 2 fair value measurements.

Reconciliation for fair value measurements in Level 3 of the fair value hierarchy for movements during the period

Total unrealized gains and losses recognized in financial assets at fair value through other comprehensive income for the nine-month periods ended September 30, 2021 and 2020 are NT\$(5,476) and NT\$4,766, respectively.

Information on significant unobservable inputs to valuation

Description of significant unobservable inputs to valuation of recurring fair value measurement categorized within Level 3 of the fair value hierarchy is as follows:

As of September 30, 2021

	Valuation techniques	Significant unobservable inputs	Quantitative information	Relationship between inputs and fair value	Sensitivity of the input to fair value
Financial assets:					
Financial assets at fair value through other comprehensive income					
Stock	Market method	Volatility	20%	The higher the volatility, the lower the fair value of the stocks.	20% increase (decrease) in the volatility would result in increase/decrease in the Group's equity by NT\$1,728 thousand

As of December 31, 2020

	Valuation techniques	Significant unobservable inputs	Quantitative information	Relationship between inputs and fair value	Sensitivity of the input to fair value
Financial assets:					
Financial assets at fair value through other comprehensive income					
Stock	Market method	Volatility	20%	The higher the volatility, the lower the fair value of the stocks.	20% increase (decrease) in the volatility would result in increase/decrease in the Group's equity by NT\$3,097 thousand

Valuation process used for fair value measurements categorized within Level 3 of the fair value hierarchy

The external evaluation institute ensures the results of the valuation are in line with market conditions, based on independent and reliable inputs which are consistent with other information, and represent exercisable prices. The group's accounting department analysis the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's accounting policies at each reporting date.

C. Fair value measurement hierarchy of the Group's assets and liabilities not measured at fair value but for which the fair value is disclosed.

As of September 30, 2021

	Level 1	Level 2	Level 3	Total
Financial assets not measured at fair value but for which the fair value is disclosed:				
Financial assets measured at amortized cost	\$334,610	\$-	\$-	\$334,610

As of December 31, 2020

	Level 1	Level 2	Level 3	Total
Financial assets not measured at fair value but for which the fair value is disclosed:				
Financial assets measured at amortized cost	\$331,470	\$-	\$-	\$331,470

Financial assets not measured at fair value but for which the fair value is disclosed:				
Financial assets measured at amortized cost	\$343,070	\$-	\$-	\$343,070

(9) Capital risk management

The primary objective of the Group's capital management is to ensure that it continues to operate and maintains an optimal capital structure in order to reduce the capital cost. The strategy of the Group in 2021 is the same as that in 2020. The Group did not borrow cash from banks and monitored the capital by debt to equity ratio. The Group's debt to equity ratio is as follow (in thousands):

	As of		
	Sep. 30, 2021	Dec. 31, 2020	Sep. 30, 2020
Total liability	\$45,465	\$61,443	\$72,276
Total equity	583,309	\$595,104	\$602,374
Ratio	7.79%	10.32%	12.00%

(10) Significant assets and liabilities denominated in foreign currencies

Information regarding the significant assets and liabilities denominated in foreign currencies is listed below (in thousands):

	September 30, 2021		
	Foreign Currency	Exchange rate	NT\$
<u>Financial assets</u>			
Monetary item:			
USD	\$208	27.85	\$5,793
	December 31, 2020		
	Foreign Currency	Exchange rate	NT\$
<u>Financial assets</u>			
Monetary item:			
USD	\$107	28.48	\$3,047

(3) Information on investments in mainland China

None.

(4) Information on major share holders

Names, number of shares, percentage of membership, and related information of shareholders with ownership over 5%: Please refer to Attachment 3.

14. Segment information

For management purpose, the Group operating units were divided according to the business provided. After the implementation of the quantitative threshold, the Group has the following two reportable operating segments:

- (1) Medical diagnostic software: The segment is mainly responsible for the development and sales of smart medical imaging diagnostic software device.
- (2) Precision medical equipment: The segment is mainly responsible for research, development, manufacturing and sales of high-end ultrasonic probes.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured based on accounting policies consistent with those in the consolidated financial statements.

(1) Information on profit or loss, assets and liabilities of the reportable segment

For the three-month period ended September 30, 2021

	Medical diagnostic software	Precision medical equipment	Consolidated
Revenue			
External customer	\$11,101	\$16,143	\$27,244
Segment loss	\$(1,230)	\$2,221	\$991

For the nine-month period ended September 30, 2021

	Medical diagnostic software	Precision medical equipment	Consolidated
Revenue			
External customer	\$21,071	\$37,866	\$58,937
Segment loss	\$(20,166)	\$(639)	\$(20,805)

AmCad BioMed Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

For the three-month period ended September 30, 2020

	Medical diagnostic software	Precision medical equipment	Consolidated
External customer	\$3,969	\$10,491	\$14,460
Segment loss	\$(9,797)	\$(1,083)	\$(10,880)

For the nine-month period ended September 30, 2020

	Medical diagnostic software	Precision medical equipment	Consolidated
External customer	\$16,902	\$27,026	\$43,928
Segment loss	\$(29,010)	\$(8,095)	\$(37,105)

Segment revenues are eliminated at the time of consolidation and are reflected under “adjustment and elimination”. All other adjustments and sales are disclosed with detailed adjustments.

(2) Assets and liabilities of the operating segment

As of September 30, 2021

	Medical diagnostic software	Precision medical equipment	Adjustment and elimination	Other unallocated amount	Consolidated
Segment assets	\$513,370	\$151,978	\$(95,446)	\$58,872	\$628,774
